CLEANMED EUROPE 2023

Europe's leading conference on sustainable healthcare brings together healthcare leaders and champions of sustainability from across the region and beyond to share ideas, innovations, challenges, and solutions for sustainability in European healthcare.

The conference showcases cutting-edge practices in sustainable healthcare and is the ideal venue for healthcare innovators to network and share ideas, finding new ways to drive change within their organisations and communities.

The virtual conference will be made up of informative presentations, informative workshops and plenty of exciting opportunities for networking and engagement.

The theme of this year's online conference is *Changing the climate of healthcare*.

We invite you to join us as we bring together a truly unique range of innovative speakers and participants to share ideas and best practice, co-create solutions, and empower individuals and teams to accelerate the transition to sustainable healthcare in Europe.

CHANGING THE CLIMATE OF HEALTHCARE

Building on the growing momentum of the COP26 Health Programme, this year's conference will bring a special focus on the role of the healthcare sector in delivering net zero emissions in Europe.

The need for action on climate change has never been more urgent. The healthcare sector has a clear opportunity to address its own contribution to climate change and the impact of climate change on public health. Reducing the sector's own emissions to net zero and changing how we deliver care is not only possible, it is imperative.

As well as preparing ourselves for the growing threats that climate change presents, the conference will showcase the links between climate challenges and other public health issues such as AMR (antimicrobial resistance) and toxic chemicals.

It is vital that we tackle these issues to change the climate of healthcare, which will ultimately improve human health.

CleanMed Europe 2023 is uniquely positioned to bring together minds and ideas from different stakeholders across the continent to transform the sector. We invite participants to rally together under this theme and share experiences of the challenges they face, existing solutions, and successes.

**TOGETHER WE CAN BUILD
AN ACTION PLAN TO
TRANSFORM HEALTHCARE
ACROSS EUROPE AND
BECOME LEADERS IN CLIMATE
ACTION.**

WHO ATTENDS CLEANMED EUROPE?

CleanMed Europe 2023 will be attended by senior leaders and decision makers from major European health systems: sustainable healthcare experts and health professionals, as well as business innovators, suppliers, and procurement officers.

WHY JOIN?

- ✓ Learn from innovative speakers
- ✓ Network with a truly unique audience
- ✓ Work together to find solutions

- ✓ Share your own work and ideas
- ✓ Hear about cutting-edge sustainability solutions

NETWORK WITH LEADING PROFESSIONALS

The conference will showcase innovative solutions for sustainable healthcare and give participants access to cutting-edge technologies and products from a wide range of credible suppliers.

RECENT SPONSORS/EXHIBITORS

WHAT PREVIOUS ATTENDEES HAVE SAID

“

“The virtual platform made this conference so much more accessible. I wouldn't have been able to attend had it been in-person. It also kept it in line with sustainable principles.”

“

“It is a vital platform for those who are working in the field.”

“

“It was such a fascinating and inspiring conference. I am so glad I signed up.”

“

“Thank you all so much for enabling this virtual conference. It has been inspiring listening to all the wonderful initiatives already implemented and getting the opportunity to network with others across Europe.”

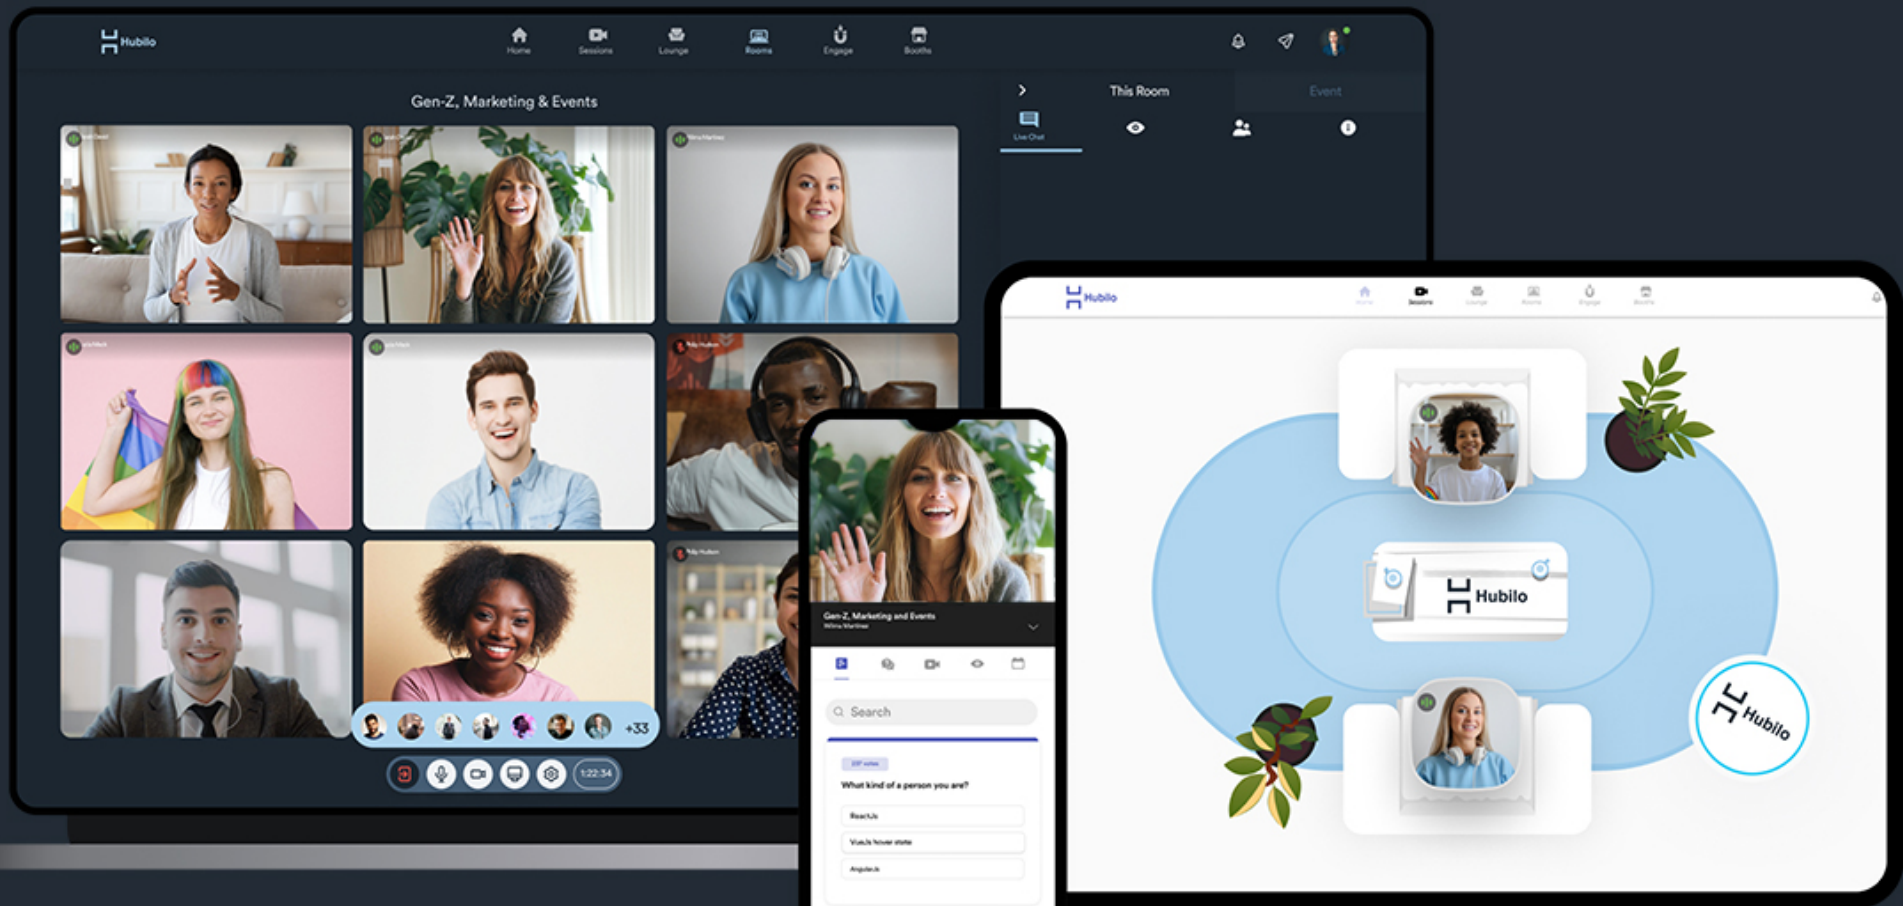

“

“CleanMed Europe exceeded my hopes because not only I've learnt a lot about what can be done but I also learnt about what has already been done and/or is ongoing.”

VIRTUAL CONFERENCE PLATFORM

CleanMed Europe 2023 will be delivered to delegates via Hubilo - an intelligent and interactive platform that is easy to navigate. Hubilo allows participants to engage with content in exciting and dynamic ways, giving you unparalleled insights into sustainable solutions for healthcare and the flexibility to access content how and when it suits you.

VIRTUAL HOST

CleanMed Europe 2023 will be a virtual event and we are excited to work with our virtual host partner [Charité – Universitätsmedizin Berlin](#).

This collaboration allows us to engage closer with healthcare professionals and sustainability leaders from Germany and explore ideas, challenges, and solutions from local organisations that spark action and act as inspiration.

Please note that all sessions at the conference will be virtual, with some sessions coming live from Berlin. All attendees will join the conference online via the virtual conference platform.

WE ARE PROUD TO WORK CLOSELY WITH LOCAL SUPPORT PARTNERS:

- [Evangelisches Krankenhaus Hubertus](#)
- [Hospital Havelhöhe](#)
- [BG Klinikum Unfallkrankenhaus](#)
- [KLUG Deutsche Allianz Klimawandel and Gesundheit](#)

ABOUT THE ORGANISERS

We are Health Care Without Harm Europe. We exist to create a sustainable healthcare sector. One that does no harm to patients or our planet. One that acts as a catalyst, inspiring action right across society to protect human health and the environment. One that drives change in communities, so people can live more healthily on a healthier planet.

The potential for transformation is huge. In Europe alone, the healthcare sector employs more than 21 million people and accounts for

10% of GDP. Right now our health systems are under increasing strain, as populations age and the impacts of climate change and pandemics grow. In this context, we prove that it's possible to deliver the highest quality of care in a way that's sustainable environmentally and financially.

We show how we can transform healthcare and protect people and our planet. Everyone connected to the healthcare sector has a vital role to play. Will you join us?

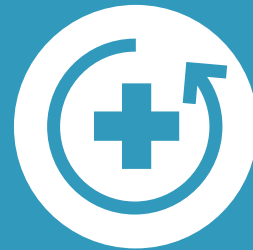

OUR WORK CENTRES ON THREE KEY PROGRAMMATIC GOALS

CLIMATE-SMART HEALTHCARE

The European healthcare sector is transformed into a low-carbon and climate resilient sector that protects public health from climate change and accelerates the transition to a low-carbon economy.

CIRCULAR HEALTHCARE

European health systems drive markets towards toxic-free products that conserve finite resources, minimise waste and contribute to an ethical supply chain and circular economy.

SAFER PHARMA

Pharmaceutical pollution in the environment and its contribution to the development of antimicrobial resistance (AMR) is minimised.
